

****NOTICE****

It's getting very close to that time of year when weight limits will be going into effect on all County roads and most of the Town roads in Oneida County. Oneida County and it's Townships try to give everyone the maximum amount of time on our roads prior to the posting of the limits. Therefore, there will be no further notification of the weight limit deadline and they will be going into effect as soon as signs are erected by our County or Township crews. If you need materials or services delivered or have materials to haul on roads that will be posted, **NOW** is the time to have these things done. With the posting of this notice it is now the public's responsibility to start watching for these signs. Depending on weather conditions, these signs could start going up at any time.

Single trip permits are available for \$20.00, multiple trip permits available for \$100.00, payable in advance. Contact Oneida County Highway Department for details.

No permits will be issued for raw forest products, or construction materials.
NO ONE will be given verbal permission to travel overweight on County roads.

We would appreciate the public's cooperation at this time of year to protect the tremendous public investment in our roads. If you have any questions, please contact our office at (715)369-6184.
