Harvest Regulations

- In the sale area, harvest only those Black Ash LARGER than 8" diameter breast height (DBH), and White Birch containing one or more merchantable sticks (100" stick to a 4" top). Do not cut any other species. Utilization on all species is a 100" stick to a 4" top. Any den or nest trees shall be left uncut. Standing dead trees are not to be cut unless they pose a safety hazard.
NO WHOLE TREE UTILIZATION.
- Frozen ground conditions will be required for harvesting and hauling activities. This site is wet and will require preparation to freeze down travel lanes prior to commencing harvesting or skidding. Tops should be used as mats to operate equipment if ground is not completely frozen. Rutting will not be tolerated.
- All landings and roads must have approval of the County prior to construction. Following completion of the sale, all trails and landings will be returned to their original condition or better. All access roads will be bermed off or blocked with boulders at the completion of each harvest season and at completion of the sale. Bond money will not be returned until all road work is completed.
- If the snowmobile trail east of the sale area is used for access, the trail must be kept open and in a safe, useable condition at all times during snowmobile season. Any wood decked on the trail must be far enough off the trail so as not to pose a safety hazard. Cautionary signs shall be placed on the snowmobile trail whenever it is being used for logging purposes.
- There is an intermittent drainage on the north end of the sale. No skidding across this drainage unless it is completely frozen. No slash is to be left in the drainage channel.
- Stump height shall not exceed 10" within the entire sale area.
- All applicable BMP's will be followed on all aspects of the sale.
- All items listed in the Oneida County Timber Sale Contract apply.

Sale Est. J Leith, WOD DNR 2/18.
