

Public Health Nurse

Oneida County Health Department

Are you a nurse with a passion for community health? Do you want to be more autonomous in your nursing? The Oneida County Health Department is looking for a nurse to join our nationally recognized team.

Come work for one of the leading public health departments in the state and nation, and you will contribute to our mission to protect, nurture, and advance the health of our community. Oneida County Health Department is working hard to achieve a vision of health equity, one in which the community is thriving and all people have what they need to be healthy.

Role: Works closely with clients, partners, and the community to promote optimal health outcomes. This position also works closely with the maternal, child, and adolescent health populations. Uses education, promotion of healthy lifestyles, research, and program implementation to positively influence health outcomes and prevent disease. Job duties may include public health preparedness, communicable disease follow up, vaccinations, health hazard investigation, outbreak response, car seat technician, case management and policy and procedure development. The applicant will implement grant objectives, work plans, respond to priorities set forth by the agency, participate on and lead community coalitions, and assist with other public health priorities as assigned.

Required Qualifications: Registered Nurse licensure required. Within two years of hire, earn a Bachelor's Degree in Nursing. Knowledge of computerized information systems and data analysis. Skills in critical analysis, problem solving, priority-setting, and group facilitation.

Preferred Qualifications: Bachelor's Degree in Nursing with 1-3 years of experience. Experience working with the maternal and child health population. Advanced degree in public health. Knowledge of local, state, and federal public health programs and planning activities.

Compensation and Benefits: This position has a starting 2023 hourly wage of \$31.24 to \$32.88 based on experience plus fringe benefit package including Health, Dental, Vision, Life and Disability Insurances plus generous PTO (Paid Time Off) with the ability to carryover unused hours into future years. This is a full time (40 hours per week) position, working Monday through Friday daytime hours with the occasional need to work evening and/or weekend hours.

Complete job description and **required** Oneida County application are available at www.co.oneida.wi.us under the Employment tab. Required Oneida County application along with resume and any college transcripts should be mailed to Oneida County LRES, P.O. Box 400, Rhinelander, WI 54501 or emailed to jueneburg@co.oneida.wi.us. Please call 715-369-6153 with any questions on this position.

Deadline to apply is Monday, August 7th 9:00 a.m.

JOB DESCRIPTION**

JOB TITLE: Public Health Nurse

DEPARTMENT: Health

Reports To: Public Health Director and Supervisor

FLSA Status: Non-exempt, Grade Level K

Prepared By: Linda Conlon

Prepared Date: July 2013

Approved By: Lisa Charbarneau

Approved Date: July 2013

Reviewed Date: January 10, 2018; March 1, 2022; July 10, 2023

GENERAL SUMMARY:

The Public Health Nurse provides public health nursing services to individuals, families, and population groups. Nursing actions are directed toward the goals of prevention, assessment, risk reduction, and health status improvement for individuals, families and communities. Nursing activities include, but are not limited to, systematic analysis of health data, care plan development, health education and advocacy, coalition building, and collaborating with community partners to promote the health of a population. Public Health Nurses often collaborate and consult within multidisciplinary and multi-agency teams in order to achieve desirable outcomes for families and communities. Public Health Nursing interventions occur at individual, family, community and system levels depending upon the responsibilities of the position and the issues involved.

STRATEGIC PLAN:

The success in strategic planning, implementation, execution and evaluation depends upon all staff commitment; ensuring the fulfillment of its goals and objectives. The mission of the health department is to protect, nurture and advance the health of our community. The vision is embracing change, partnerships and best practices to lead Oneida County to a healthy future. Linking daily actions to both the mission and vision is essential in providing high quality services to our community. Functions with a * are directly linked to our strategic plan.

ESSENTIAL DUTIES AND RESPONSIBILITIES

Under general supervision and/or as part of various workgroups and teams, the Public Health Nurse performs the following essential functions within the framework of Oneida County Health Department's provision of the core functions and essential services of public health:

Public Health Sciences

1. Performs comprehensive individual and family assessments which include health history, physical assessment, growth monitoring, developmental assessment, psycho-social assessment, assessment of family functioning, assessment for substance abuse or domestic violence issues, and assessment of basic needs including food, housing, income, resources and supports, and access to health care.

2. Provides care coordination, referral and follow-up to individuals and families who are members of a vulnerable population and/or high-risk groups. Evaluates outcomes, effectiveness of plan, and makes changes as necessary.
3. *Uses public health surveillance/disease investigation methods in community outreach, screening, and case finding of communicable and infectious diseases that threaten the health of the community.
4. Investigates complaints regarding environmental health problems and environmental health hazards and initiates enforcement or corrective actions as required.
5. *Provides education and counseling to individuals, families and community groups that are adapted to their unique needs, lifestyle, cultural and socio-economic situation.
6. Obtains and completes appropriate patient "Consent for Care" forms, ensures patient confidentiality and maintains orderly medical records. Follows established Public Health medical records policies and procedures as well as the State and Federal laws that govern the release of health care information.
7. *Documents patient assessment and intervention data in medical records. Uses established medical record forms, databases and documentation practices.
8. Responds to individual client emergency situations in the clinical or home setting with basic life support and first aid skills. Summons other health care providers and emergency response personnel in a timely and appropriate manner.
9. *Collaborates in development and delivery of programs and activities for individuals, families and population groups that promote health and prevent disease, in settings including, but not limited to all Health Department buildings/sites, homes, community organizations and businesses, schools, and the community in general.
10. Evaluates outcomes of public health nursing interventions; works with others (clients and other professionals) to makes changes as necessary.
11. Participates in response teams to prevent, minimize, and contain adverse health events and conditions resulting from communicable diseases; food-, water-, and vector-borne outbreaks; chronic diseases; environmental hazards; injuries; and health disparities.
12. *Collaborates in the development of and contributes to individual, team, and Departmental quality improvement, performance management and evaluation activities.

Community Dimensions of Practice

13. *Collaborates in Oneida County Health Department's community health assessment and health improvement planning and intervention activities.
14. *Delivers targeted, culturally-appropriate information to help individuals and groups understand health promotion and disease prevention information, policies, regulations and local code.

15. *Actively participates in and acts as a liaison with other community agencies and professionals in collaborative efforts to address community health priorities
16. Advocates on behalf of vulnerable individuals and populations; participates in assessing and evaluating health care services to ensure that people are informed of available health department and community programs and services and are assisted in the utilization of those services.
17. *Participates in Oneida County Health Department research and demonstration projects that seek to improve the health of communities and determine new ways to address health issues.
18. *Contributes to a work environment that fosters ongoing educational experiences regarding public health nursing for colleagues, nursing and other health-related students, healthcare professionals and members of the community.

Analysis and Assessment

19. *Participates in community assessment; can distinguish between quantitative and qualitative community assessment data; understands incidence and prevalence data; knows how to access basic community epidemiological data.
20. *Participates in the analysis of data to identify trends, health problems, environmental health hazards, and social and economic conditions that adversely affect the public's health.

Leadership and Systems Thinking

21. *Demonstrates knowledge of applicable state professional practice guidelines for registered professional nurses, the American Nurses' Association *Scope and Standards of Practice for Public Health Nursing* any other Federal and State laws and regulations applicable to practice as an public health nursing professional.
22. Adheres to applicable Occupational Safety and Health Administration standards, such as those concerning exposure to blood borne pathogens, toxic substances, airborne pathogens or exposure to other hazards during routine assignments or assignments during public health emergencies.
23. *Collaborates in developing a work environment where performance management, continuous quality improvements in professional practice is pursued.
24. *Assumes responsibility for own professional growth and development by pursuing education; participating in professional committees and work groups

Policy Development and Program Planning

25. *Coordinates public health activities with environmental and public health professionals and investigators from other agencies and jurisdictions, including, but not limited to, the Wisconsin Division of Public Health and the Centers for Disease Control and Prevention.

26. *Coordinates activities among and between other governmental agencies, such as the Wisconsin Department of Health Services, that enforce laws and regulations that protect the public's health.
27. *Collaborates in the development of evidence-based public health nursing practices and programs in collaboration with universities, other nursing agencies, businesses, trade associations, other staff and the public.
28. *Collaborates in the development, implementation and evaluation of long and short range policies, plans and programs for public health and public health nursing in Oneida County.
29. *Collaborates in and contributes to individual, team, and Departmental performance management, quality improvement and evaluation activities.

Communication and Cultural Competency

30. *Delivers targeted, culturally-appropriate information to help individuals and groups understand local environmental public health policies, regulations and code.
31. *Utilizes appropriate methods for interacting effectively and professionally with persons of all ages and from diverse cultural, socioeconomic, educational, racial, and ethnic backgrounds, sexual orientations, lifestyles and physical abilities. Examples of methods may be: one on one, group sessions, media interviews, story boards, website and face book
32. *Educates local and state policy makers and community stakeholders on public health issues.
33. Adheres to ethical principles and Oneida county Health Department policy in the collection, maintenance, use, and dissemination of data and information.

Financial Planning and Management

29. Collaborates in activities such as time studies that contribute to the development of budgets and the efficient use of resources.

Other

34. Performs public health emergency response duties as assigned and consistent with job classification and training provided, in response to threats to the public's health.
35. *Participates in Department and community emergency response training and drills consistent with job classification in support of public health emergency and disaster preparedness.
36. *This position will be responsible for using quality improvement (QI) and performance management (PM) processes and/or techniques to improve the effectiveness of the respective public health program. This includes, but is not limited to: creating, implementing, and evaluating performance standards and identifying, implementing, and assessing program quality improvement processes.

37. *Assumes responsibility for own professional growth and development by pursuing education, participating in professional committees and work groups and contributing to a work environment where continual improvements in practice are pursued.
38. Performs other duties as assigned consistent with job classification.
